

The JCL Company Portfolio

Overview

This portfolio integrates the strengths and offerings of **JCL**, **JESSIN Farms**, and **FINDAT**. Each project brings a unique expertise to the table, creating a unified force in consultancy, agriculture, and data analytics.

About Project

- **JCL** is a leading consultancy project offering high-quality services in project management, resource mobilization, and strategic advisory.
- **JESSIN Farms** is a project focused on production and supply of organic foods with a commitment to sustainability.
- **FINDAT** is a data analytics project which provides data-driven management advisory services, professional training and automates business processes.

Services

- **Consultancy (JCL):** Project management, resource mobilization, strategic advisory, human resource, and financial consultancy.
- **Agriculture (JESSIN Farms):** Production and supply of fresh organic vegetables, spices, fruits, fish, and poultry.
- **Data Analytics (FINDAT):** Data examination & visualization, performance measurement report, website and application system development. Furthermore, various educational programs are offered to train professionals about data management, leadership and governance.
